

Mission Possible Snap Cards

I can begin to use a range of mental calculation strategies.

To complete the mission: Cut the cards and place downwards onto the table. Taking turns, choose 2 cards. If the cards equal 100 or 1000, keep the cards otherwise turn the card back over. Continue the game until all the cards have been used. The person with the most cards by the end of the game completes the mission.

100	900	200	800	300
700	400	600	500	500
