

Sunglasses Summer Art

Andy Warhol was a famous artist who created lots of artwork, including a style called Pop Art. He would reprint a photograph (often of a celebrity) lots of different times using different bright colours in each reprint.

The sun is strongest during the summer so wearing sunglasses is a great way to protect your eyes from the sun's rays.

Produce your own sunglasses Pop Art using the template below.

You will need:

- A selection of strong, bright colours in whatever you are going to use to colour. It could be paints or felt tips. Fluorescent colours work particularly well in Pop Art.
- Sunglasses template

Instructions

Colour in each pair of sunglasses and the background of each section. Pop Art isn't meant to be realistic so use strong, bright colours. The lenses on each pair of sunglasses could even be different colours to each other.
