

Family Learning

with Birmingham Adult Education Service

Digital Families – IT skills

This short FREE course will help you understand the basics of IT – such as:

- creating an email address
- sending emails and attaching images/documents to the email
- opening and using a word document
- using zoom
- and basic IT troubleshooting and understanding your way around a computer

This course will get you IT ready to support your child's schoolwork or your coursework during and after lockdown.

This course is free – to register an interest and a place on this course please speak to your school and mention Family Learning IT course

You will need access to a computer or laptop for each session

This course will start after October half term
