Dinosaur World Map Activity

Created by @teachwithrosie

Oh no! Dinosaurs have taken over the world!

Using the template below, create a new world map to show where the dinosaurs are now living. You can even create your own dinosaurs and give them a name!

I have included some examples below for you to use as inspiration. Be creative as possible and remember to send me your maps!

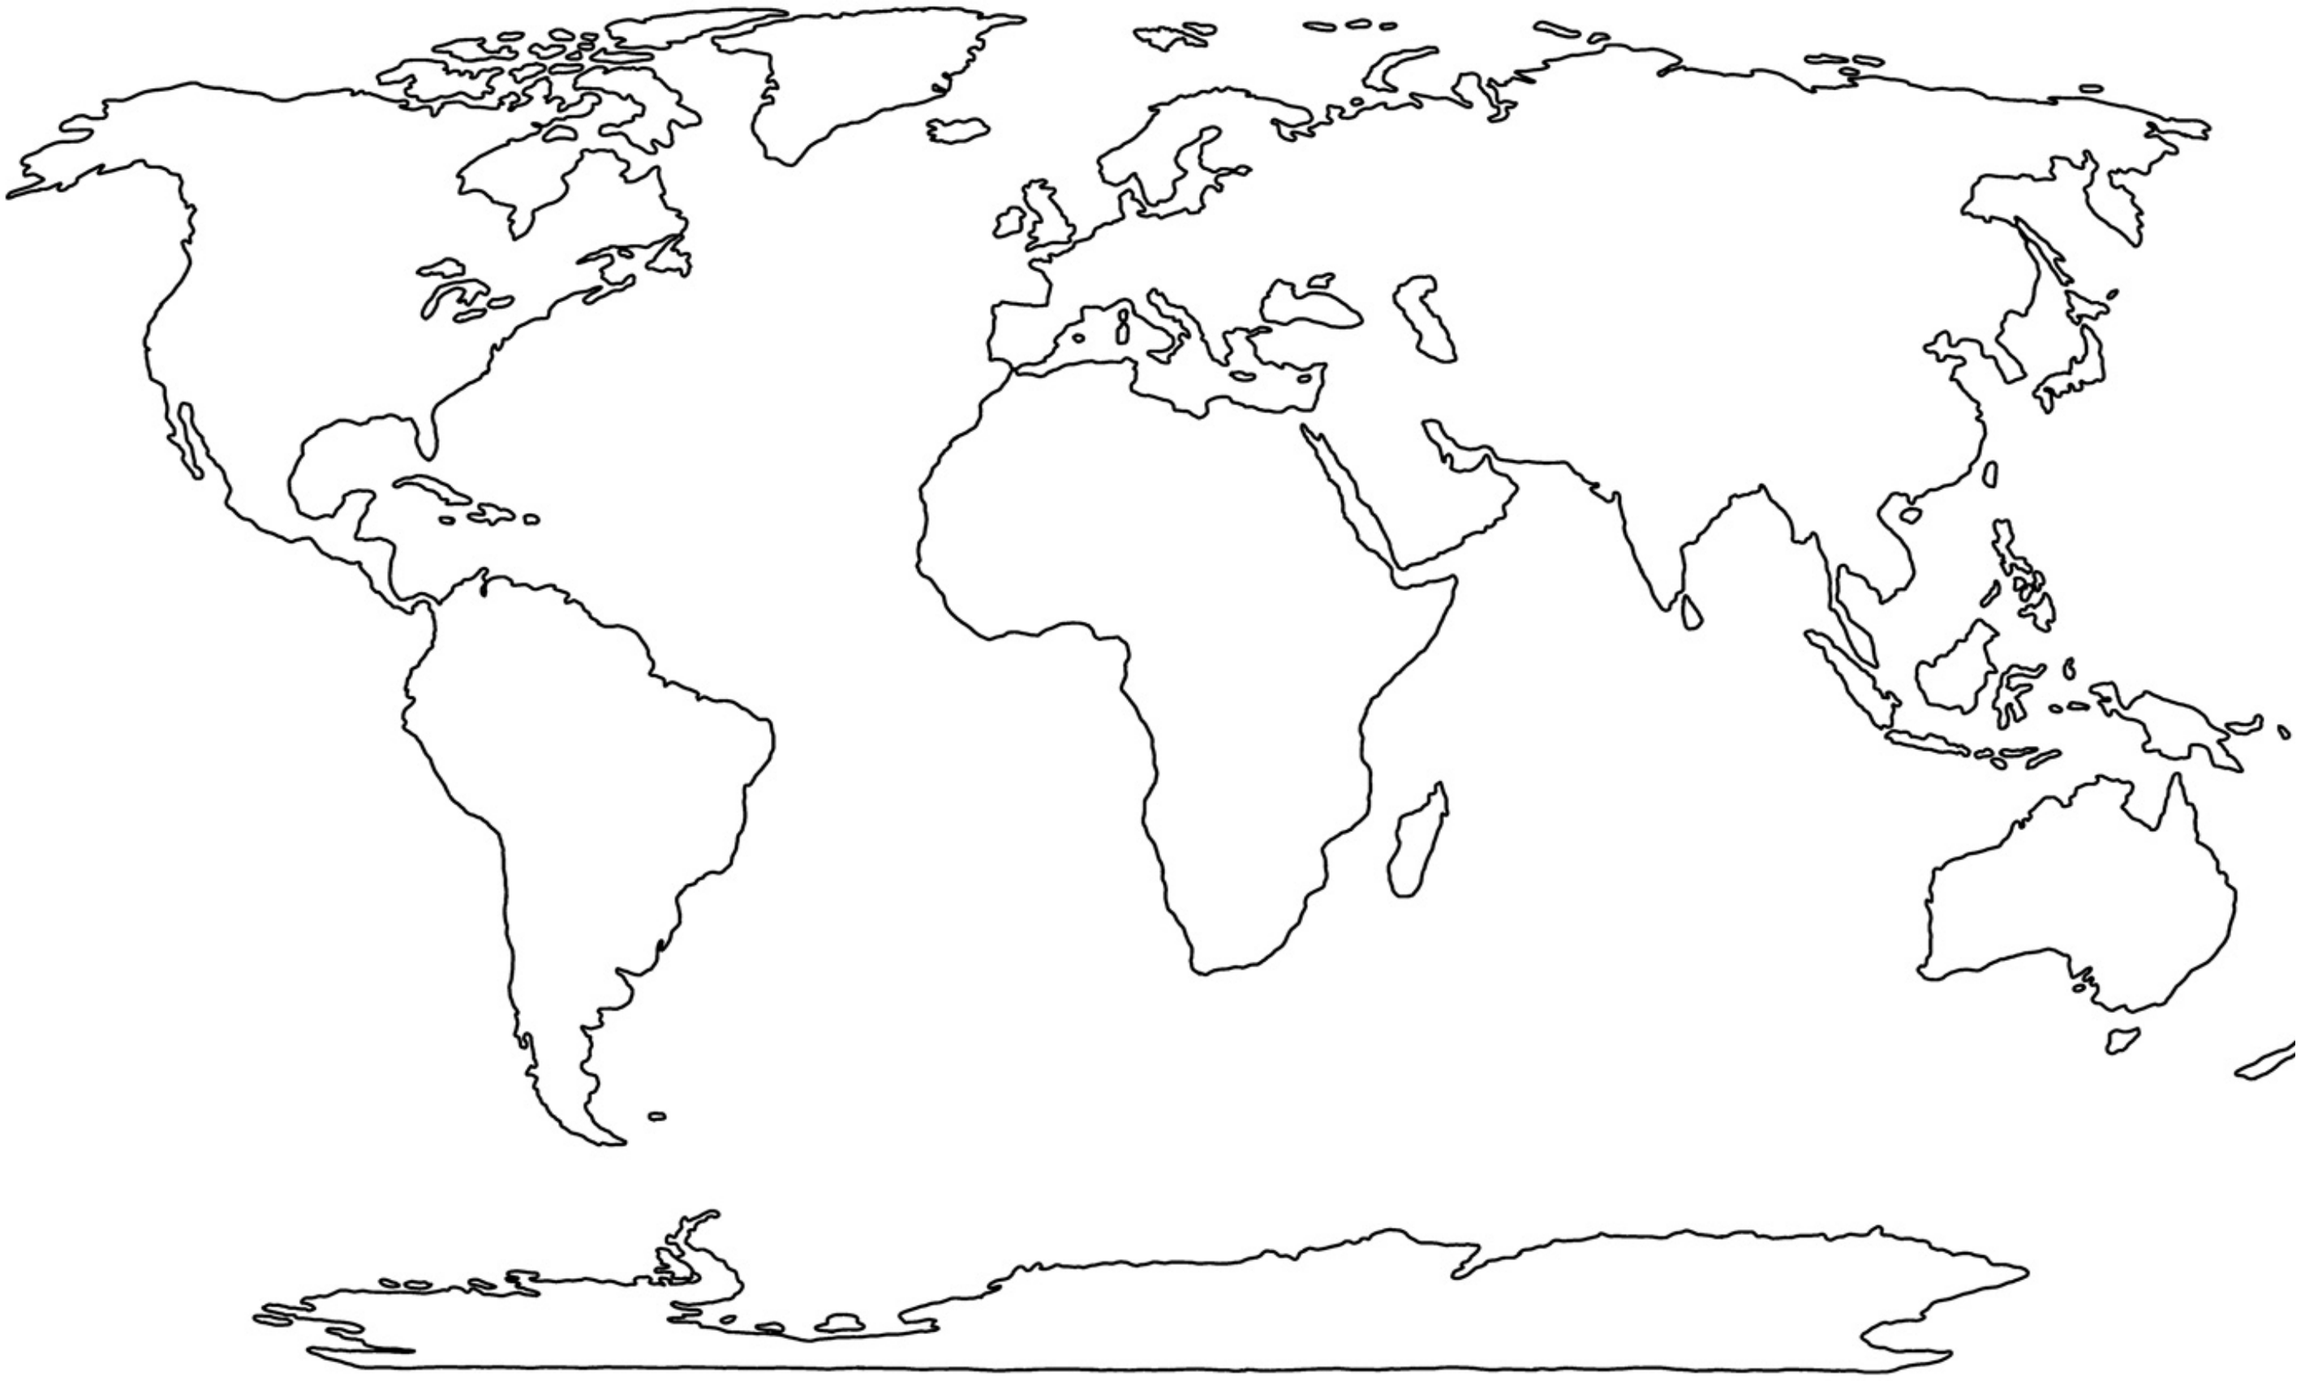

Challenge: Can you label the seven continents on your map?

Examples

Arctic ocean
North America
Eurasia
Atlantic ocean
Africa
Pacific ocean
Indian ocean
South America
Pacific ocean
Australia
Antarctica

pterosaur
ARCTIC OCEAN
